PROFILE

Software developer with ~2 years of professional experience building production React/TypeScript applications for international teams in Stockholm and Amsterdam. Building in public on GitHub since 2022. My stack has since grown into Next.js, cloud deployment (AWS, Clever Cloud, CI/CD) and AI/LLM API integration. Now pursuing a Foundation in IT toward a Computer Science degree, with a focus on AI and embedded systems.

EXPERIENCE

Frontend Developer • Youpal Group, Stockholm Feb 2023 – Dec 2024

- Built and maintained user-facing React features as a full-time member of the software development team.
- Collaborated with back-end and full-stack engineers on real-world, production applications.

Full-Stack Developer • Selego B.V., Amsterdam (Contract) Apr 2024 – Dec 2025

- Delivered end-to-end MERN features for a client engagement, owning tasks from spec to deployment.
